ABOUT US

Global Marketing Products is an international manufacturer of quality customized promotional products. As a member of ASI, PPAI, and UPIC we understand the values and standards that help keep distributors and sales professionals as respected members of your customer's team. We will do everything possible to meet our promised delivery dates and continually offer the highest degrees of quality that are both expected and required.

With our headquarters in New York, we will address any inquiry, question, or request immediately. Our fully dedicated customer service and support teams are always ready to discuss and assist you with any of your project requirements. We place customer satisfaction as our top priority, which is evident by our superior products and unmatched service. Please feel free to utilize our onsite warehouse which offers full inventory control for any stocking or blanket program that may be required.

Members of our Quality Control Department continually team make regular onsite visits to our factories. This helps to assure that the Quality Control Standards and Methods we require are both utilized and met. All the factories we partner with are certified as Socially Compliant and utilize only products authorized by the USFDA. A full set of MSDS sheets and/or product safety testing certificates are available upon request.

Talk to us today about all of your ideas, imaginations and needs.... Our goal is to turn them into reality, today!

Product Description

Our most popular product is the Custom Printed Polyester Lanyard. They are made from a high quality, durable, and comfortable polyester material. Polyester has a certain polish that gives you a superior product with a professionally finished look and feel. A variety of custom printing options are readily available on all lanyard designs. We have a large rainbow of available stock colors for you to choose from. In addition, we offer you the ability to pick your own PMS color. Our screen print comes with an enamel base that no one across the industry can provide. This allows us to guarantee that your imprints will not rub off with use. Custom Printed Polyester Lanyards are stylish, economical, and a great tool for your trade show, seminar, event, or ID badge straps. In our factory, we produce our own polyester material which allows us to offer Just in Time Manufacturing capability. Our deep inventory supports our manufacturing requirements and helps to assure we are always ready to provide any quantity or color you need.

All our lanyards can be used with any type of attachment. We have FREE ARTWORK ASSISTANCE for your custom printed polyester lanyards, so please feel free to utilize our in-house art department to assist you!

Product Description

Looking for the shiniest material possible on your custom printed lanyard design? Just choose our custom printed nylon lanyards. Screen Printing on this shiny surface affords a vivid and detailed look. Screen printed nylon lanyards are slightly shinier than the custom printed polyester lanyards and have a more exotic appearance than other types of lanyards. A variety of custom printing options are readily available on all lanyard designs. We have a large rainbow of available stock colors for you to choose from. In addition, we offer you the ability to pick your own PMS color. Our screen print comes with an enamel base that no one across the industry can provide. This allows us to guarantee that your imprints will not rub off with use. Your logo can be printed with one or more colors on our custom nylon lanyards. It is great for ID neck straps, events, branding campaigns, corporate branding, university and college ID holders.

All our lanyards can be used with any type of attachment. We have FREE ARTWORK ASSISTANCE for your custom printed nylon lanyards, so please feel free to utilize our in-house art department to assist you!

A05 | FULL COLOR DYE SUBLIMATION LANYARDS

Product Description

The Dye-sublimation process is a digital printing technology using full color artwork that works with polyester lanyards. This method uses heat and pressure, applied to print your custom design on your lanyards. In sublimation printing, the print will not crack, fade or peel from the substrate lanyard under normal conditions. It is extremely durable and perfect for any intricate and highly detailed colored logo, design or text. Our team will work closely with you on a perfect full color custom printed dye sublimation design that you will proudly wear!

All our lanyards can be used with any type of attachment. We have FREE ARTWORK ASSISTANCE for your custom printed full color dye sublimation lanyards, so please feel free to utilize our in-house art department to assist you!

Product Description

The Dye-sublimation process is a digital printing technology using full color artwork that works with polyester lanyards. This method uses heat and pressure, applied to print your custom design on your lanyards. In sublimation printing, the print will not crack, fade or peel from the substrate lanyard under normal conditions. It is extremely durable and perfect for any intricate and highly detailed colored logo, design or text. Our team will work closely with you on a perfect full color custom printed dye sublimation design that you will proudly wear!

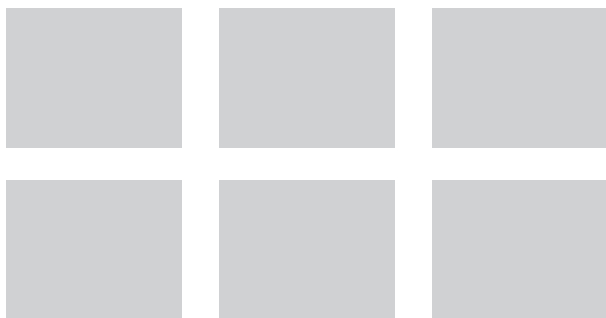

All our lanyards can be used with any type of attachment. We have FREE ARTWORK ASSISTANCE for your custom printed full color dye sublimation lanyards, so please feel free to utilize our in-house art department to assist you!

C | BEVERAGE COOLERS

Our beverage coolers are made from high quality neoprene which is a much better insulator than standard foam. They are perfect insulators for aluminum or steel cans, and glass or plastic bottles. Coolers are used to insulate a chilled beverage from warming by conduction and heat radiation, such as: A Hand, Sunlight, or Warm Air.

Using a cooler can reduce the rate a drink warms in the sun by up to 50%. Our coolers can keep beer or soda ice cold and your hands warm at the same time.

Other benefits include easily identifying one's beverage from another person's and is excellent for advertising and marketing. Many companies successfully use the coolers as promotional giveaways because they are not only inexpensive, but their frequent use is more likely to bring the company's name to the public's eye. We can customize and imprint your logo or image on any of our variety of colors, either by screen-printing or by dye-sublimation (perfect for intricate logos).

Other benefits include easily identifying one's beverage from another person's and is excellent for advertising and marketing. Many companies successfully use the Koozie as a promotional giveaway because they are not only inexpensive, but their frequent use is more likely to bring the company's name to the public. We can customize and imprint your logo or image on any of our Koozies, either by screen-printing or by dye-sublimation (perfect for intricate logos).

5000+	\$1.63

Product Description

A cylindrical insulator for beer cans or beer bottles (also works with any beverage in aluminum cans or glass bottles). Our Koozies are made from high quality neoprene which is a better insulator than foam.

Koozies are used to insulate a chilled beverage from warming by conduction and heat radiation,

such as:

- A Hand
- Warm Air
- Sunlight

Using a koozie can reduce the rate a drink warms in the sun by up to 50%. Our Koozie can keep beer ice cold and your hands warm at the same time.

Other benefits include easily identifying one's beverage from another person's and is excellent for advertising and marketing. Many companies successfully use the Koozie as a promotional giveaway because they are not only inexpensive, but their frequent use is more likely to bring the company's name to the public. We can customize and imprint your logo or image on any of our Koozies, either by screen-printing or by dye-sublimation (perfect for intricate logos).

E | NON-WOVEN BAG

Non-Woven Totes are perfect for all events, giving your guests program related materials, or as a giveaway. They are eco-friendly, fully customizable, recyclable, and reusable.

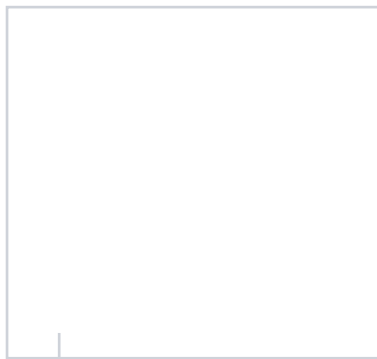

Custom Non-Woven bags are a smart and useful way to promote your company or event. Everyone loves these bags - to reuse as shopping or tote bags. They can be customized with your company logo, messages, offers, contact info and any other designs you choose.

The bags are manufactured from premium quality non-woven polypropylene and are supported with back stitches, cross stitches, a hemmed opening reinforced sewn handles, and side and bottom gussets. They are available in a rainbow of print color options.

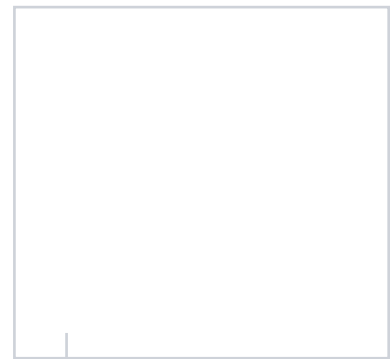

Our non-woven poly is 100% recyclable, made from 40% pre-consumer recycled contents, and 60% post-consumer recycled contents.

TESTIMONIALS

I appreciate your help in making this happen for my customer! Promotional items make me nervous because we lose some aspect of control over quality and customer service. It is nice to have a caring associate on your side assisting my company to continue our gold standards!

Thank you,
Melissa
President

You guys are my heros! Thank you so much for getting my order out so fast.

Thank you,
Monica

Thanks so much for your help with our order. You've been amazing!

Thank you,
Control Printing Group

Thank you so much. We appreciate the professional help and follow-up. Not very often will you find that in this industry. I'll rate you on SAGE now as A+ across the board!

Trent
Precision Marketing & Sales, Inc.

We are very pleased to let you know that our customer LOVES the wristbands. Jeff and I felt each step of the way during the process start to finish went so smoothly. We will do a rating reflecting the excellent service and products. We look forward to working with you again in the near future.

Lyn
